2016
GRESB Real Estate Developer Assessment
April 1, 2016
About GRESB

GRESB is an industry-driven organization committed to assessing the environmental, social, and governance (ESG) performance of real assets globally, including real estate portfolios (public, private and direct), real estate debt portfolios, and infrastructure. Almost 200 members, including 60 pension funds and their fiduciaries, use GRESB data in their investment management and engagement process, with a clear goal to optimize the risk/return profile of their investments. For more information, visit www.gresb.com.

About the 2016 GRESB Developer Assessment

Besides the GRESB Real Estate Assessment for property companies and fund managers that focus on the management of standing investments, GRESB provides a stand-alone GRESB Developer Assessment for organizations that focus on development activities. The Developer Assessment evaluates the ESG performance of these organizations, focusing on policies, strategies, and measurable actions related to new construction and major renovation projects.

The following organizations should fill out the GRESB Developer Assessment:

- Organizations that develop projects, or acquire development projects, with the aim to sell the projects at completion. Projects can be developed to a tenant’s specification (build to suit), commissioned by an investment manager, or can be developed at risk;
- Organizations that manage standing investments as a by-product of their development activities, and for whom the development activities are considered to be the core business.

Companies reporting to the GRESB Developer Assessment complete a subset of indicators from the GRESB Real Estate Assessment, including the 14 indicators in the New Construction & Major Renovations (NC&MR) Aspect.

The role of the GRESB benchmark

GRESB’s global benchmark uses a consistent methodology across different regions, investment vehicles and property types. The GRESB Developer Assessment contains 37 indicators that examine a broad range of ESG topics. The indicators are designed to encompass the specific focus of organizations with development activities and projects.

Based on the Developer Assessment, GRESB provides a Developer Score for each participating company. GRESB recognizes that the real estate sector and the ESG issues that the sector must consider are highly complex and that within countries, regions and property types there are significant variations. Therefore, GRESB emphasizes both to participants and to real estate investors that the measurement of absolute performance is only a single element of a broad range of indicators reported in the benchmark. The structure of the GRESB Developer Assessment creates the opportunity to report on specific topics using the following logic: policy/plan, actions, monitoring and accountability. The key to analyzing GRESB data is in peer group comparisons, taking into account regional variations.

GRESB aims for the inclusion of its ESG metrics in the investment decision-making processes. Equally important is an active dialogue between investors, and companies and fund managers regarding ESG issues. GRESB provides its Investor Members with an Investor Engagement Guide to assist with this process.

Who can see my data?

Data collected through the GRESB Developer Assessment is disclosed to the participants themselves only, and:

- In the case of non-listed organizations, to those of that organization’s investors that are GRESB Investor Members;
- In the case of listed companies, to all GRESB Real Estate Investor Members that invest in listed real estate securities.

Grace Period

GRESB offers property companies and funds reporting for the first-time the option not to disclose their first year Developer Assessment results to their investors – a "Grace Period." This period allows companies and funds a one-year period to familiarize themselves with the GRESB reporting and assessment process, without externally disclosing their results to GRESB’s Investor Members.

Grace Period participant names are disclosed to GRESB’s Real Estate Investor Members. However, Investor Members are not able to request access to Grace Period participants’ results. Grace Period participants can use the Scorecard and Benchmark Report to identify opportunities to improve their performance for next year’s Developer Assessment. Those first-time participants wishing to participate in the Grace Period must select the option when registering to participate in the Developer Assessment.

Timeline & Process

The GRESB Developer Assessment opens in the GRESB Portal on April 1, 2016, alongside the GRESB Real Estate Assessment. The submission deadline is July 1, 2016, providing participants with a three-month window to complete the assessment. This is a fixed deadline, and GRESB will not accept submissions received after this date.
GRESB validates and analyses all GRESB Developer Assessment submissions. This process starts upon receipt of the first submission and continues until July 31, 2016. We may need to contact you during this time to clarify any outstanding issues with your response. Results are published on September 7, 2016 and are distributed as follows:

Participants in the GRESB Developer Assessment will receive a Scorecard free of charge. It includes:
• A Developer Score, and comparison and ranking based on all participants in the Developer Assessment;
• A separate score, comparison and ranking of the additional New Construction & Major Renovations Aspect, based on all participants in the Developer Assessment, and on all participants in the GRESB Real Estate Assessment that filled out the New Construction & Major Renovations Aspect;
• On payment of a fee, participants are also able to obtain a Benchmark Report containing an in-depth analysis of their ESG performance;
• Company and Fund Manager Members: Receive Benchmark Reports for all of their Developer Assessment submissions and have access to GRESB’s Member Portal, which contains additional functionalities enabling them to create their own portfolio analysis;
• Investor Members: Receive Benchmark Reports for all of their investments and have access to GRESB’s Member Portal, which contains additional analysis tools enabling investors to create their own reports based on a selection of their investments.

Response Check service

A Response Check is a high-level check of a participant’s GRESB Developer submission by the GRESB team, taking place prior to submission of a response. It minimizes the risk of errors that could adversely impact the Developer Assessment results.

The Response Check fee for non-members is €750 (exclusive of VAT). GRESB Members are able to request a complimentary Response Check as one of their membership benefits. Organizations that submit the GRESB Developer Assessment for multiple entities are entitled to a maximum of three Response Checks as part of their membership benefits.

Reference Guide & Support

The 2016 Developer Assessment is accompanied by an indicator-specific Reference Guide that explains:
• The intent of each indicator;
• The requirements for each response;
• Explanation of any terminology used;
• References to any third-party documents;
• Basic scoring information;
• The number of points available.

The 2016 GRESB Reference Guide materials also include:
• Additional examples of frequently provided valid/non-valid answers, based on 2015 data;
• Details of GRESB’s validation process.

The Reference Guide will be available during the first week of March 2016. Guidance per question is also available in the GRESB Portal, through pop-up fields next to each indicator. The GRESB Helpdesk is open year-round to answer questions from participating organizations.

GRESB Training Program for property companies, fund managers, developers, and service providers

GRESB is providing a training program for property companies, fund managers, developers and service providers, during Spring 2016. The GRESB Training Program offers a high-quality and content-rich educational experience addressing all aspects of ESG in real estate portfolios as covered by the GRESB Real Estate Assessment and GRESB Developer Assessment. The training enables participants to assess and enhance their current performance, to more efficiently prepare their GRESB response, and to improve the quality of their submission.

The training program will take place in selected locations in Europe, North America and Asia Pacific. In-house sessions are available upon request. Detailed information about the program is available on the GRESB website.
Entity and Reporting characteristics

Entity Characteristics

Entity name ________________

Fund manager (organization) name (if applicable) ________________

Nature of ownership:

○ Listed entity. Please specify ISIN ________________
  Year of commencement: ________________

○ Non-listed entity
  Year of first closing: ________________

For non-listed entities:

  Fund style classification:
  ○ Core
  ○ Value added
  ○ Opportunity

  Open or closed end:
  ○ Open end
  ○ Closed end

  Finite or infinite structure:
  ○ Finite structure. Specify termination date: ________________
  ○ Infinite structure

The reporting period is:

○ Calendar year

○ Fiscal year. Specify the starting month ________________
Is the organization a member of a real estate association?

- Yes [multiple answers possible]
  - Asian Association for Investors in Non-listed Real Estate Vehicles (ANREV)
  - Asia Pacific Real Estate Association (APREA)
  - British Property Federation (BPF)
  - European Public Real Estate Association (EPRA)
  - European Association for Investors in Non-Listed Real Estate Vehicles (INREV)
  - Vereniging van Institutionele Beleggers in Vastgoed, Nederland (IVBN)
  - National Association of Real Estate Investment Trusts (NAREIT)
  - Pension Real Estate Association (PREA)
  - Real Property Association of Canada (REALpac)
- No

Reporting Characteristics

Values are reported in:

- Australian Dollar (AUD)
- Brazilian Real (BRL)
- Canadian Dollar (CAD)
- Chinese Yuan (CNY)
- Danish Krone (DKK)
- Euro (EUR)
- Hong Kong Dollar (HKD)
- Indian Rupee (INR)
- Japanese Yen (JPY)
- Malaysian Ringgit (MYR)
- Mexican Peso (MXN)
- Pound Sterling (GBP)
- Singapore Dollar (SGD)
- South African Rand (ZAR)
- South Korean Won (KRW)
- Swedish Krona (SEK)
- Swiss Franc (CHF)
- United States Dollar (USD)
- Other ________________

What was the gross asset value (GAV) of the entity at the end of the reporting period?

_______________ (in millions)

Metrics are reported in:

- m²
- sq.ft.

What is the entity’s core business?

- Development of new construction and major renovation projects [continue with RC-NC1.1]
- Management of standing investments only [continue with GRESB Real Estate Assessment]
- Management of standing investments and development of new construction and major renovation projects [continue with GRESB Real Estate Assessment, including the New Construction & Major Renovations Aspect]
## New Construction & Major Renovations

### RC-NC1.1

**Describe the composition of the entity’s new construction projects during the reporting period:**

<table>

Sustainability Objectives

**Does the entity have specific sustainability objectives?**

- Yes
  - The objectives relate to [multiple answers possible]
    - General sustainability
    - Environmental
    - Social
    - Governance
  - The objectives are [select one]
    - Fully integrated into the overall business strategy
    - Partially integrated into the overall business strategy
    - Not integrated into the overall business strategy

  The objectives are
  - Publicly available
    - Online - hyperlink
    - Offline - separate document
    - **UPLOAD** supporting evidence
    - Communicate the objectives (maximum 250 words)

  - Not publicly available
    - **UPLOAD** supporting evidence
    - Communicate the objectives (maximum 250 words)

- No
Does the organization have one or more persons responsible for implementing the sustainability objectives at entity level? (multiple answers possible)

- Yes
  - Dedicated employee(s) for whom sustainability is the core responsibility
    - Provide the details for the most senior of these employees
      - Name
      - Job title
      - E-mail
      - LinkedIn profile (optional)
  - Employee(s) for whom sustainability is among their responsibilities
    - Provide the details for the most senior of these employees
      - Name
      - Job title
      - E-mail
      - LinkedIn profile (optional)
  - External consultant/manager
    - Name of the organization
    - Name of the main contact
    - Job title
    - E-mail
    - LinkedIn profile (optional)
  - Other

- No

Sustainability Decision-Making

Does the organization have a sustainability taskforce or committee that is applicable to the entity?

- Yes
  - Select the members of this taskforce or committee (multiple answers possible)
    - Asset managers
    - Property managers
    - Board of Directors
    - Senior Management Team
    - External consultants
    - Other
    - Fund/portfolio managers

- No

Note: You may be asked for additional information about the organization indicated in the Name of the organization field
Does the entity have a senior decision-maker dedicated to sustainability?

- Yes
  - The individual is part of
    - Board of Directors
    - Senior Management Team
    - Fund/portfolio managers
    - Other
    - Investment Committee

  Provide the details for the most senior decision-maker on sustainability issues
  - Name
  - Job title
  - E-mail
  - LinkedIn profile (optional)

- No

Does the entity have a formal process to inform the most senior decision-maker on the sustainability performance of the entity?

- Yes
  - Describe the process (maximum 250 words)

- No
- Not applicable

Does the organization include sustainability factors in the annual performance targets of the employees responsible for this entity?

- Yes
  - Select the employees to whom these factors apply (multiple answers possible)
    - Acquisitions team
    - All employees
    - Asset managers
    - Board of Directors
    - Client services team
    - Fund/portfolio managers
    - Property managers
    - Senior Management Team
    - Other

- No

  - Water consumption/management
  - Waste management
  - Other

Communication of the strategy

- Publicly available
  - Online - hyperlink
  - Offline - separate document
  
  Indicate where the relevant information can be found
  
  Upload supporting evidence

  Communicate the strategy (maximum 250 words)

- Not publicly available
  
  Indicate where the relevant information can be found
  
  Upload supporting evidence

  Communicate the strategy (maximum 250 words)

- No
NC2 Does the entity have sustainable site selection criteria in place for new construction and major renovation projects?

- Yes

Select all criteria included (multiple answers possible)

- Connect to multi-modal transit networks
- Locate projects within existing developed areas
- Protect, restore, and conserve aquatic ecosystems
- Protect, restore, and conserve farmland
- Protect, restore, and conserve floodplain functions
- Protect, restore, and conserve habitats for threatened and endangered species
- Redevelop brownfield sites
- Other __________________________

The entity’s sustainable site selection criteria are aligned with

- Third-party guidelines, specify __________________________
- Third-party rating system[s], specify scheme[s]/sub-scheme[s] __________________________
- Other __________________________
- Not aligned

The entity’s sustainable site selection criteria are required to

- Meet local requirements
- Meet above-code standards for some projects. Describe the standards (maximum 150 words) __________________________
- Meet above-code standards for all projects. Describe the standards (maximum 150 words) __________________________
- Meet national or global leadership standards for some projects. Describe the standards (maximum 150 words) __________________________
- Meet national or global leadership standards for all projects. Describe the standards (maximum 150 words) __________________________

UPLOAD supporting evidence OR Indicate where the relevant information can be found

Document name AND __________________________
Publication date __________________________

- No

- Not applicable
NC3 Does the entity have sustainable site design/development requirements for new construction and major renovation projects?

- Yes
  
  Select all applicable options (multiple answers possible)
  
  - Manage waste by diverting construction and demolition materials from disposal
  
  - Manage waste by diverting reusable vegetation, rocks, and soil from disposal
  
  - Protect air quality during construction
  
  - Protect surface water and aquatic ecosystems by controlling and retaining construction pollutants
  
  - Protect and restore habitat and soils disturbed during construction and/or during previous development
  
  - Other ____________

  The entity’s sustainable site design/development criteria are aligned with
  
  - Third-party guidelines, specify ____________
  
  - Third-party rating system(s), specify scheme(s)/sub-scheme(s) ____________
  
  - Other ____________
  
  - Not aligned

  The entity’s sustainable site design/development criteria are required to
  
  - Meet local requirements
  
  - Meet above-code standards for some projects. Describe the standards (maximum 150 words) ____________
  
  - Meet above-code standards for all projects. Describe the standards (maximum 150 words) ____________
  
  - Meet national or global leadership standards for some projects. Describe the standards (maximum 150 words) ____________
  
  - Meet national or global leadership standards for all projects. Describe the standards (maximum 150 words) ____________

  **UPLOAD** supporting evidence

- No
Materials and Certifications

NC4 Does the entity require that the environmental and health attributes of building materials be considered for new construction and major renovation projects?

☐ Yes

Select all issues addressed (multiple answers possible)

- Formal adoption of a policy regarding health attributes and performance of building materials.
- Formal adoption of a policy regarding the environmental attributes and performance of buildings materials.
- Requirement for information (disclosure) about building product environmental and health attributes, including requirements for (multiple answers possible)
  - Health and environmental information
  - Environmental Product Declarations
  - Health Product Declarations
  - Other types of health and environmental information ____________

- Building product specification, including (multiple answers possible)
  - Preferential specification and purchasing of materials that disclose environmental impacts
  - Preferential specification and purchasing of materials that disclose potential health hazards
  - “Red list” of prohibited materials or ingredients that should not be used on the basis of their human and/or environmental impacts
  - Specification of locally extracted or recovered materials
  - Specification and purchasing of rapidly renewable materials, low embodied carbon materials, and recycled content materials
  - Specification and purchasing materials that can easily be recycled
  - Specification and purchasing of third-party certified wood-based materials and products
    - Types of third-party certification used: ____________
  - Specification and purchasing of low-emitting materials
  - Other ____________

Compliance with specifications

Describe practices and processes to ensure consistency and compliance with specification requirements and preferences (maximum 250 words)

[UPLOAD supporting evidence]

[Indicate where the relevant information can be found]

☐ No

☐ Not applicable
NC5.1 Does the entity incorporate green building standards in new construction and major renovation projects?

- Yes

Select all applicable options (multiple answers possible)

- The entity requires projects to align with requirements of a third-party green building rating system but does not require certification

Select % portfolio covered

- > 0%, < 25%
- ≥ 25%, < 50%
- ≥ 50%, < 75%
- ≥ 75%, ≤ 100%

Green building rating systems: include all that apply ____________

- The entity requires projects to achieve certification with a green building rating system

Select % portfolio covered

- > 0%, < 25%
- ≥ 25%, < 50%
- ≥ 50%, < 75%
- ≥ 75%, ≤ 100%

Green building rating systems: include all that apply ____________

- The entity requires projects to achieve a specific level of certification

Select % portfolio covered

- > 0%, < 25%
- ≥ 25%, < 50%
- ≥ 50%, < 75%
- ≥ 75%, ≤ 100%

Level of certification: include all applicable rating systems ____________
Levels adopted as a standard by the entity ____________

- No
- Not applicable
NC5.2 Does the entity’s portfolio include new construction and major renovation projects that obtained a green building certificate?

- Yes
  - Specify the certification scheme(s) used and the percentage of the portfolio certified (multiple answers possible)

Projects in progress at the end of reporting period

Note: A list of provisionally validated certification schemes is provided in the Reference Guide. If you select “other”, you will be asked to complete the validation questions for the scheme (see Appendix).

- No
- Not applicable

Energy Efficiency

NC6 Does the entity have minimum energy efficiency requirements for new construction and major renovation projects?

- Yes
  - The entity promotes energy efficiency through (multiple answers possible)
    - Requirements for planning and design include
      - Integrative design process
      - Requirement to exceed relevant energy codes or standards
      - Other ____________________
Common energy efficiency measures include (multiple answers possible)

- Air conditioning
- Commissioning
- Energy modeling
- Lighting
- Occupant controls
- Space heating
- Ventilation
- Water heating
- Other __________________

Operational energy efficiency monitoring (multiple answers possible)

- Energy use analytics
- Post-construction energy monitoring for on average ______ years
- Sub-meter
- Other __________________

The entity’s energy efficiency measures are required to

- Meet local requirements

- Meet above-code standards for some projects. Describe the standards (maximum 150 words)__________________________________________________________

- Meet above-code standards for all projects. Describe the standards (maximum 150 words)__________________________________________________________

- Meet national or global leadership standards for some projects. Describe the standards (maximum 150 words)__________________________

- Meet national or global leadership standards for all projects. Describe the standards (maximum 150 words)__________________________

Upload supporting evidence Indicate where the relevant information can be found

- No
NC7.1 Does the entity incorporate on-site renewable energy in the design of new construction and major renovation projects?

- Yes
- Projects designed to generate on-site renewable energy (multiple answers possible)
  - Biofuels Percentage of all projects _____%
  - Geothermal Percentage of all projects _____%
  - Hydro Percentage of all projects _____%
  - Solar/photovoltaic Percentage of all projects _____%
  - Wind Percentage of all projects _____%
  - Other ____________ Percentage of all projects _____%

Average design target for the fraction of total energy demand met with on-site renewable energy _____%

[UPLOAD supporting evidence] Indicate where the relevant information can be found

- No
- Not applicable

NC7.2 Are the entity’s new construction and major renovation projects designed to meet net-zero energy codes and/or standards?

- Yes
  - Applicable net-zero standard:
    - Description of the entity’s definition of “net-zero energy” (max 150 words)
    - Description of the applicable reference code or standard (max 150 words)
    - Other ____________

Percentage of projects covered _____%

[UPLOAD supporting evidence] Indicate where the relevant information can be found

- No
Water Conservation and Waste Management

NC8  Does the entity promote water conservation in its new construction and major renovation projects?

- Yes

The entity promotes water conservation through (multiple answers possible)
- Requirements for planning and design include (multiple answers possible)
  - Development and implementation of a commissioning plan
  - Integrative design for water conservation
  - Requirements for indoor water efficiency
  - Requirements for outdoor water efficiency
  - Requirements for process water efficiency
  - Requirements for water supply
  - Other__________
- Common water efficiency measures include (multiple answers possible)
  - Commissioning of water systems
  - Drip/smart irrigation
  - Drought tolerant/low-water landscaping
  - High-efficiency/dry fixtures
  - Leak detection system
  - Occupant sensors
  - On-site wastewater treatment
  - Re-use of stormwater and grey water for non-potable applications
  - Other__________
- Operational water efficiency monitoring (multiple answers possible)
  - Post-construction water monitoring for on average _______ years
  - Sub-meter
  - Water use analytics
  - Other__________

The entity’s water efficiency measures are required to
- Meet local requirements
- Meet above-code standards for some projects. Describe the standards (maximum 150 words) ____________________________________________________________________________________________
- Meet above-code standards for all projects. Describe the standards (maximum 150 words) ____________________________________________________________________________________________
- Meet national or global leadership standards for some projects. Describe the standards (maximum 150 words) ____________________________________________________________________________________________
- Meet national or global leadership standards for all projects. Describe the standards (maximum 150 words) ____________________________________________________________________________________________
Does the entity promote efficient on-site solid waste management during the construction phase of its new construction and major renovation projects?

Yes

The entity promotes efficient solid waste management through

- Management and construction practices (multiple answers possible)
  - Construction waste signage
  - Education of employees/contractors on waste management
  - Incentives for contractors for recovering, reusing and recycling building materials
  - Targets for waste stream recovery, reuse and recycling
  - Waste management plans
  - Waste separation facilities
  - Other ______________________

- On-site waste monitoring (multiple answers possible)
  - Hazardous waste monitoring
  - Non-hazardous waste monitoring
  - Other ______________________

The entity’s solid waste management approach is required to

- Meet local requirements
- Meet local requirements Meet above-code standards for some projects. Describe the standards (maximum 150 words)

- Meet above-code standards for all projects. Describe the standards (maximum 150 words)
- Meet national or global leadership standards for some projects. Describe the standards (maximum 150 words)
- Meet national or global leadership standards for all projects. Describe the standards (maximum 150 words)
Supply Chain

NC10.1 Does the entity have sustainability-specific requirements in place for its contractors?

- Yes
  Select all topics included (multiple answers possible)
  - Business ethics
  - Community engagement
  - Environmental process standards
  - Environmental product standards
  - Human health-based product standards
  - Human rights
  - On-site health and safety
  - Sustainability-specific requirements for sub-contractors
  - Other
  Percentage of projects covered _____%
  
  [UPLOAD] supporting evidence.

- No

2 points, S

NC10.2 Does the organization monitor its contractors’ compliance with its environmental and social requirements in place for this entity?

- Yes
  Select all applicable options (multiple answers possible)
  - Contractors provide update reports on environmental and social aspects during construction
  - External audits by third party. Percentage of projects audited during the reporting period _____% by __________
  - Internal audits. Percentage of projects audited during the reporting period _____%
  - Weekly/monthly (on-site) meetings and/or ad hoc site visits. Percentage of projects visited during the reporting period _____%
  - Other

- No

- Not Applicable
Health, Safety and Well-being

NC11 Does the entity promote occupant health and well-being in its new construction and major renovation projects?

Yes

The entity addresses health and well-being in the design of its product through (multiple answers possible):

- Requirements for planning and design, including (multiple answers possible)
  - Health Impact Assessment
  - Integrated planning process
  - Other planning process ________________

- Common occupant health and well-being measures, including (multiple answers possible)
  - Access to spaces for active and passive recreation
  - Active design features
  - Commissioning
  - Daylight
  - Indoor air quality monitoring
  - Indoor air quality source control
  - Natural ventilation
  - Occupant controls
  - Provisions for active transport
  - Other ________________

- Provisions to verify health and well-being performance include (multiple answers possible)
  - Occupant education
  - Post-construction health and well-being monitoring for on average ______ years (e.g., occupant comfort and satisfaction)
  - Other ________________

The entity’s occupant health, safety, and well-being measures are required to

- Meet local requirements
- Meet above-code standards for some projects. Describe the standards (maximum 150 words) ____________________________
- Meet above-code standards for all projects. Describe the standards (maximum 150 words) ____________________________
- Meet national or global leadership standards for some projects. Describe the standards (maximum 150 words) ____________________________
- Meet national or global leadership standards for all projects. Describe the standards (maximum 150 words) ____________________________

UPLOAD supporting evidence .

No
NC12.1 Does the entity promote on-site health and safety during the construction phase of its new construction and major renovation projects?

- Yes
  
  The entity promotes on-site health and safety through (multiple answers possible)
  
  - Communicate safety information
  - Continuously improve safety performance
  - Demonstrate safety leadership
  - Entrench safety practices
  - Manage safety risks
  - Promote design for safety
  - Other________

  The entity’s on-site health and safety measures are required to
  
  - Meet local requirements
  - Meet above-code standards for some projects. Describe the standards (maximum 150 words)
  - Meet above-code standards for all projects. Describe the standards (maximum 150 words)
  - Meet national or global leadership standards for some projects. Describe the standards (maximum 150 words)
  - Meet national or global leadership standards for all projects. Describe the standards (maximum 150 words)

  [UPLOAD supporting evidence]

- No

- Not applicable

NC12.2 Does the organization monitor health and safety indicators at construction sites?

- Yes
  
  Select all applicable options (multiple answers possible)
  
  - Injury rate ______________________
    
    Explain the injury rate calculation method (maximum 250 words)
    
    ______________________________
  
  - Fatalities ________________
  
  - Near misses _____________________

- No
Community Impact and Engagement

**NC 13** Does the entity assess the potential socio-economic impact of its new construction and major renovation projects on the community as part of planning and pre-construction?

- Yes
  - Select the areas of impact that are assessed (multiple answers possible)
    - Housing affordability
    - Impact on crime levels
    - Livability score
    - Local income generated
    - Local residents’ well-being
    - Walkability score
    - Other ________________
  - [UPLOAD supporting evidence](#)

- No

**NC 14** Does the entity have a systematic process to monitor the impact of new construction and major renovation projects on the local community during different stages of the project?

- Yes
  - The entity’s process includes (multiple answers possible)
    - Analysis and interpretation of monitoring data
    - Development and implementation of a communication plan
    - Development and implementation of a community monitoring plan
    - Development and implementation of a risk mitigation plan
    - Identification of nuisance and/or disruption risks
    - Identification of stakeholders and impacted groups
    - Management practices to ensure accountability for performance goals and issues identified during community monitoring
    - Other ________________
  - Describe the monitoring process (maximum 250 words)
    - [UPLOAD supporting evidence](#)

- No
THE FOLLOWING QUESTIONS ARE FOR VALIDATION PURPOSES; MANDATORY BUT NOT SCORED

If other, confirm:

A. Certification scheme
   a. Certification scheme name ____________________________
   b. Certification sub-scheme name ____________________________
   c. Certification body name ____________________________

B. Country where certification was granted ____________________________

C. Is the certification an in-house or external scheme?
   a. In-house certification scheme
   b. External scheme

D. Verification of compliance with scheme requirements is based on:
   a. Third-party document review
   b. Third-party on-site assessment
   c. Both document and on-site assessment performed by a third party
   d. No third-party document review or on-site assessment required

   [NB: If you use an in-house scheme, GRESB will ask for an upload to provide additional information on the scheme. If no third-party document review or on-site assessment required, GRESB will ask for an upload to provide specific information on the assessment method]

E. Does the scheme have a public list of certified projects online?
   - Yes
     Provide hyperlink ____________________________
   - No

F. Is the scheme required by a national or regional government agency?
   - Yes
     Specify name of agency ____________________________
   - No

G. Is the scheme used by a national or regional government agency?
   - Yes
     Specify name of agency ____________________________
   - No

H. Does the certification require:
   a. Performance-based design goals for energy efficiency and/or GHG emissions reduction
   b. Operational performance data for energy efficiency and/or GHG emissions reduction
   c. Both design and operational goals and data collection
   d. None

I. Select the topics included in the scheme assessment: [multiple answers possible]
   a. Location (e.g., brownfield redevelopment, density, walkability)
   b. Transportation (e.g., access to public transport)
   c. Site design (including stormwater management, heat island reduction, etc.)
   d. Energy efficiency
   e. Greenhouse gas emissions
   f. Indoor water conservation
g. Outdoor water conservation
h. Waste management (including waste diversion, recycling)
i. Indoor environmental quality
j. Operations/management
k. Materials selection
l. Biodiversity and habitat conservation
m. Public health and wellness
n. Social equity
o. Resilience

J. Use the text box below to provide any additional information about the scheme (maximum 250 words)
