

2020 Review Period Process Form

Our aim is to provide our stakeholders with high-quality, credible “investment-grade” ESG performance results. This information can be used with confidence by investors to make investment decisions and to engage with their managers, and by managers to understand the opportunities for improvement and take appropriate actions.

The preliminary GRESB results are shared under strict embargo with participants (ONLY with participants, not with investors) for internal review, on September 1. During the period 1 - 15 September, participants can check their results and raise any material anomalies with the GRESB team, by completing the form below. The preliminary Benchmark Reports do not include rankings, as they can change after the results revision process, and cannot be used for public communication or engagement with investors.

All requests will be evaluated and resolved by the GRESB team in the period 15 - 22 September. The decisions are shared with the inquiring participants. The decisions are final and cannot be appealed. We will only take into consideration requests submitted within the official request period.

Fill out the below information and attach additional supporting evidence to support the review process.

Date:	
Entity name:	
Fund manager name (if applicable):	
Account manager name:	
Account manager job title:	
Account manager email address:	

Information required for review process
