For detailed information on each change and subsequent versions of the Standards beyond 2025, please refer to the complete document. Should you have any questions, please [contact](#) the GRESB Member Success team.

*Note that all indicators where new content has been introduced are not pre-filled in 2025.

STANDARDS UPDATES			
INDICATOR CODE(S)	DESCRIPTION OF CHANGE	REPORTING IMPACT	SCORING IMPACT
N/A	Assets under Grace Period no longer contribute to Fund score and Portfolio Impact data	No reporting impact.	✓
N/A	Introduction of a 'New Fund Participant' exclusion reason	Funds with at least 25% of assets reporting to GRESB may exclude assets from their score to avoid penalization for incomplete asset coverage during the first two years of reporting.	✓

UPDATES TO EXISTING INDICATORS			
INDICATOR CODE(S)	DESCRIPTION OF CHANGE	REPORTING IMPACT	SCORING IMPACT
LE1	Score removal and structure amendment of ESG Leadership Commitments indicator	Participants can report ESG leadership public commitments via a simplified dropdown menu instead of a multi-faceted selection list.	↻
LE3	Individual responsible for ESG, climate-related, and/or DEI objectives no longer assessed	LE3 is removed; reduced reporting burden.	↻
RM3.1 RM3.6	Clarification of manual evidence validation requirements for climate-related risk indicators	No reporting impact.	—
