

GRESB Infrastructure Asset Standard 2025 Updates Summary Table

This document is a summary of the [GRESB Infrastructure Asset Standard – 2025 Updates](#). For detailed information on each change and subsequent versions of the Standards beyond 2025, please refer to the complete document. Should you have any questions, please [contact](#) the GRESB Member Success team.

*Note that all indicators where new content has been introduced are not pre-filled in 2025.

UPDATES TO EXISTING INDICATORS				
TOPIC	INDICATOR CODE(S)	DESCRIPTION OF CHANGE	REPORTING IMPACT	SCORING IMPACT
LEADERSHIP	LE2	Structure amendment of ESG Leadership Commitments indicator	Participants can report ESG leadership public commitments via a simplified dropdown menu instead of a multi-faceted selection list.	—
CLIMATE-RELATED RISK MANAGEMENT	RM4.1 RM4.6	Clarification of manual evidence validation requirements	No reporting impact.	—
DATA COVERAGE	EN1, GH1, WT1-2, WS1, HS1-4	Data coverage of performance indicator metrics is more precisely assessed and scored	Participants must report a data coverage estimate from 0-100% for key metrics across performance indicators and describe their methodology used to do so.	✓
GHG EMISSIONS & NET ZERO TARGETS	GH1	Scope 1 & 2 emissions verification/assurance is manually validated and scored	Participants must respond to an additional question in the GRESB materiality assessment (RC7) to determine applicability of assurance/verification scoring and validation. Relatively large assets will be subject to scoring and validation of third-party emissions data review.	M
	GH1	Location-based Scope 2 reporting is now required	Participants are required to report location-based Scope 2 GHG emissions, while reporting market-based Scope 2 emissions remains optional.	✓
	GH1	Introduction of minimum requirements for Net Zero target setting metrics	Participants must report* the following metrics to achieve points for Net Zero target setting: •Scope of target •Scope 2 accounting method •Metric used •Base year *At least two: Short-, medium-, and long-term target years •Reporting year performance *Optional: % of target fulfilled by carbon offsets	✓
	GH1	Introduction of new checkbox for the materiality assessment of Scope 3 categories	Participants reporting Scope 3 emissions must answer whether they implement a process to determine the Scope 3 categories deemed material/relevant.	—
	GH1	Materiality identification of Scope 3 categories is now required	Participants reporting Scope 3 emissions must identify the categories identified as material/relevant to the asset.	—
EMPLOYEES	EM2	'Gender pay gap' metric can now be inputted as a value between -100-100 instead of 0-100	Participants will be able to report values between -100 and 100 in the gender pay gap metric.	—

REMOVALS OF AND WITHIN EXISTING INDICATORS			
INDICATOR CODE(S)	DESCRIPTION OF CHANGE	REPORTING IMPACT	SCORING IMPACT
LE1	Entity materiality assessment no longer assessed	LE1 is removed; reduced reporting burden.	↻
LE4	Individual responsible for ESG, climate-related, and/or DEI objectives no longer assessed	LE4 is removed; reduced reporting burden.	↻
RM5.1 RM5.3	Monitoring of ESG performance no longer assessed	RM5.1, RM5.2, and RM5.3 are removed; reduced reporting burden.	↻
SE3.2	Stakeholder grievance monitoring no longer assessed	SE3.2 is removed; reduced reporting burden. Participants may instead disclose incidents flagged by stakeholder grievance in RP2.2 "ESG incident occurrences."	—
IM1-3	Implementation of ESG actions no longer assessed	IM1, IM2, and IM3 are removed; reduced reporting burden. Participants may instead disclose actions taken to mitigate ESG risks in the open text box of relevant performance indicators.	—
OI1	Output and Input metrics are re-distributed throughout the assessment and OI1 is removed	Participants must report Current Year Output in the Entity & Characteristics section. Participants may optionally report Current Year Capacity in the Entity & Characteristics section.	—
EN1, GH1, WT1-2, WS1, B1, HS1-2	Removal of self-reported intensity targets from performance indicators	Participants are no longer asked to report current- and future-year intensity targets within performance indicators. *For HS1-2, gross performance metrics (e.g. lost time injuries, total recordable injuries) will now be scored to align with other performance indicators.	✓
B1	'Wildlife fatalities' metric not mandatory/required to score fully on indicator B1	Participants may report 'Wildlife fatalities' voluntarily.	—
CA1	Infrastructure certifications are no longer scored	Participants may voluntarily opt to disclose infrastructure certifications for reporting purposes.	↻
CA2	Infrastructure awards are no longer assessed	Indicator CA2 is removed; reduced reporting burden.	—

Legend

- ✓ Update has impact on scoring
- M Update may have impact on scoring depending on materiality
- Update has no impact on scoring
- ↻ No longer scored. Remaining points redistributed across the Assessment
